

Lottery Notification Process

Following Navigator Pointe's Open Enrollment/Lottery, families will be notified individually of their acceptance or wait-list status by April 1, 2010. Upon notification of acceptance, families will be provided with required registration packets and a firm deadline to complete and return student registration materials to the school to reserve the enrollment space. If registration forms are not returned by the deadline, the enrollment space will be considered unclaimed and will be offered to the next wait-list student.

Remaining applicants from the lottery will be numbered on a wait-list according to their sequence in the lottery. Families will be provided written notification of wait-list status by April 1, 2010. Wait lists are arranged in the following priority:

- Children of Navigator Pointe Academy founders
- Children of Navigator Pointe Academy licensed teachers
- Siblings of currently enrolled students
- All other children

Applicants will remain on Navigator Pointe Academy's wait-list until a parent/guardian notifies the school to remove application(s). Enrollment offers will be made as openings become available.

Navigator Pointe Academy cannot be responsible for applications and registration materials that are late, incomplete, or contain misinformation. It is the responsibility of the applicant to ensure that Navigator Pointe Academy has accurate, timely information.
